

Conor Manning | Sr. DevOps Engineer

Austin, Texas, United States

✉ conor@conormanning.com • 🌐 <https://conormanning.com>
📄 [@conor-manning13](#) • 🗣️ [@conorwithonen](#)

Basics

- Data-driven and organized person who loves automation, software development, and passing builds.
- Adept at technical troubleshooting and problem solving, both in and out of the incident bridge.
- Experienced with configuration management tools and how to utilize them with proper IaC practices.
- Team player with an agile mindset and a keen eye for security, risk management, compliance, and efficiency.

Work

Funko

<https://funko.com>

Lead DevOps Engineer

Jun 2025–Present

- Led a lean DevOps team of 2 engineers supporting multiple websites that collectively generated \$920M+ in reported net sales in 2025.
- Built and maintained scalable AWS and Datadog foundations to support peak collectible demand cycles and DTC growth priorities high-lighted in company earnings updates.
- Partnered on cost and efficiency initiatives during tariff-driven headwinds in 2025, helping engineering teams maintain delivery while the business managed margin pressure.
- Continued building out Funko's event-driven architecture.

Keywords: AWS, Terraform, Cloudflare, Datadog

Funko

DevOps Engineer

Mar 2024–Jun 2025

- Supported the development teams in releasing Funko's mobile app version 8.0 which introduced commerce functionality.
- Worked with the team overhauling funkco's IaC architecture in Terraform and Puppet.
- Designed and built code that introduced event-driven architecture into Funko's commerce integrations.

Keywords: ECS, Docker Swarm, Terraform, SSL Certificates

Funko

System Analyst

Jan 2023–Mar 2024

- Continued supporting the Mondo team as they transitioned into the larger Funko organization.
- Quickly and efficiently learned the legacy technologies that power funkco.com & loungefly.com as well as how to maintain legacy systems with updates and patches needed in standard KTLO practices.

Keywords: Cloudflare, AWS, Bash

Mondo

<https://mondoshop.com>

DevOps Analyst

Jun 2017–Jan 2023

- Solo managed all website, networking, and development needs for mondoshop.com for multiple years until Funko aquired the site.

Keywords: Python, Node.js, LiquidJS

Skills

Container Orchestration: Expert **Keywords:** Docker / Docker Swarm, ECS, YAML, Terraform, Networking

DevOps: Expert

Keywords: Python, CI/CD, Puppet, Shell, Ansible, Linux

Networking: Advanced

Keywords: NGINX, TLS/SSL, DNS

Projects

SNL Analysis

<https://github.com/conorwithonen/snl>

Historical analysis of days between SNL episodes

Dec 2025–Dec 2025

- A data analysis project I did in order to win an argument.
- Practice to follow code and commit cleanliness
- General python profficiency

Keywords: Python, Rest API, Jupyter Notebook, Education
